

Garmin Adds to GFC 600 Approvals

Cessna P210N Approved; Kits Shipping Now

Garmin is pleased to announce that the Cessna P210N has received FAA STC approval for the [GFC 600](#) autopilot and is now available for installation. Foreign validations will soon follow. GFC 600 features Electronic Stability and Protection, underspeed and overspeed protection, coupled approaches, support for the recently announced Smart Glide, and much more. For full system pricing, please refer to the updated Aviation Dealer Autopilot Price Catalog available on the [DRC](#) or contact your RSM with any questions.
